

Question 3: Draw a histogram to illustrate this data. Then explain why the 60-100 class (which has the highest frequency) is NOT the modal class

Age	0 - 20	20 - 30	30 - 40	40 - 50	50 - 60	60 - 100
frequency	10	24	28	25	20	32

Question 6: Convert your histogram from Question 3 to a frequency polygon
